RE: Confirmation of support for sound installation

Dear Manon,

We are delighted to work with you as part of our responsive programme to support and collaborate on the Liverpool iteration of your site-specific sound installation, which engages with three cities across the North, using different mediums to explore space in an interactive way.

We work with communities across the city region, nationally and internationally and look forward to connecting our audiences and reaching out to new groups through this partnership. We are particularly interested in how presenting work in this way can make the performances accessible to the most diverse audience as possible.

For this programme we will work directly with you to support the development and delivery of a performance in the Mann Island atrium space in summer 2023.

Through our responsive programme, we can provide support-in-kind, including staff support from our Responsive Programme Coordinator and through the marketing and dissemination of your project. We estimate a total cost of £850 support-in-kind.

Breakdown of in-kind costs:
Event space hire: £550
Staff time and marketing support: £300
Total: £850

We look forward to working with you on this project. If you need any more information from us then please do not hesitate to get in touch,

Yours sincerely,

Sorcha Boyle, Responsive Programme Coordinator
